PRICING FOR 'SYRACUSE' GEARBOXES

For your ratios and options, see our EZ-Spec page :
www.autogear.net/motorsports/ez-spec-form/

Complete gearboxes include legendary Italian gears and shafts by Masiero, synchronizers by Euroricambi and Auto Gear's own thrust-button SuperCase, high-performance C355T6 aluminum midplate, 'Oilite'-bushed shift cover, improved tailhousing and investment-cast steel shift forks. Gearboxes come packed in a custom wooden crate.

DIY Kits: All the parts in our Complete Gearbox, but you supply the labor. A great way to learn about gears and we pay the tuition! (Shipping boxes not included).

'Superfinishing' is standard on all M23-series gearboxes and optional (+\$100.00) elsewhere. The following items are treated: mainshaft, mainshaft gears, countershaft cluster, forward shift forks, and synchronizer sliding clutches.

'Thrust buttons' which are standard on all M22 & M23-series gearboxes and optional on M20's (+\$25.00), cushion the shock of hard launches and high-RPM downshifts.

PRICING FOR GEARBOXES AND GEARBOX KITS
